DETAILED ACTION

Claim Objections

Claim 2 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 2 appears to be saying in different words the same thing as claim 1, namely that the two screws approach the deck from opposite sides.

Allowable Subject Matter

Claims 1 and 3-11 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to teach or fairly suggest the claimed subject matter as a whole including the cylinder head being fastened to the upper deck portion with a first bolt, the cylinder outer wall portion being fastened to the upper deck portion with a second bolt at an opposite side of the upper deck portion with respect to the cylinder head, and the second bolt fastens the cylinder outer wall portion to the upper deck from an opposite side of the upper deck portion with respect to the first bolt, in the context of a fastening structure for an engine, the engine including a cylinder block having a cylinder bore and a cylinder head assembled with the cylinder block, wherein the cylinder block is divided into a cylinder inner wall portion defining the cylinder bore and a cylinder outer wall portion surrounding the cylinder inner wall portion, wherein the cylinder inner wall

portion has an integrated upper deck portion, the upper deck portion having a receiving surface on which the cylinder head is placed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

.Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
